SATIN LIPS
PRIMER & CONCEALER

SATIN LIPS
PRIMER & CONCEALER

1 Place the Satin Lips Mask on the top right of the tray, in the left hole. Apply scrub for 1 minute, to exfoliate dead skin. Remove scrub with washcloth and dry with paper towel.

2 Place Satin Lips Balm on the top right of the tray, in the right hole. Satin Lips Balm hydrates for 6 hours at a time. No alcohol, unlike chapsticks which have alcohol and dries lips so you never really feel “soft.”

How do your lips feel? Your lipstick will look so much better with no extra dry skin hanging out on your lips!

1 Apply Foundation Primer quickly all over: eyes, nose, cheeks, chin, forehead.

- Oil-free
- SPF 15
  Helps foundation last all day & night
- Helps fill-in skin imperfections for a porcelain doll finish
- Water resistant

2 Do you feel how silky it is? Feels like a silk nightgown on your face.

---

1 Concealer makes eyes look brighter and your face look flawless.

2 A little goes a long way. A little ....

- underneath the eye area where dark circles are
- on the eyelids to cover veins and discoloration
- on the middle of your nose from the middle of the eyebrows straight down to the tip of your nose
- on the front of your chin to make your face look smaller

It’s water resistant - so it stays on even after a dip in the pool or crying after a sad movie.
